Sabila Akram

Full Stack Developer

I am a tech enthusiast who loves to learn and explore new technologies and trends. I have a diploma in artificial intelligence, and I am currently pursuing a bachelor's degree in computer science. I am also taking a course in web 3.0, metaverse and blockchain, where I am learning full stack development with JavaScript / TypeScript and React Next. My interest in technology stems from my curiosity and creativity. I enjoy solving problems, building projects, and experimenting with different tools and frameworks. I believe that technology can make a positive impact on the world and I want to be part of that change.

Experience

Intership   July 2021 – Sep 2021

KNCT

This was an internship of 6 weeks in which every week we learn about different new topics which includes, web development, content writing, entrepreneurship and different soft skills
